EDUCATION TRUST

N.M.A.M. INSTITUTE OF TECHNOLOGY

(An Autonomous Institution affiliated to Visvesvaraya Technological University, Belagavi)
DEPARTMENT OF ELECTRICAL & ELECTRONICS ENGINEERING

Dear Mr. Prabhakar Panday

I am writing this letter to you in gratitude for your generous gesture of engaging our students and discussing current industry trends. This will help our students to keep themselves updated about the industry requirements and provide the knowledge of state-of-the-art technologies.

I am overwhelmed to see your generous gesture of sponsoring working kits for the students to be used in our department hobby project exhibition 'Elixir'.

I would like to place in record your contributions to the department when you were studying here in 2011-14. Your personal achievements and assistance to juniors has been one of the reasons for the success story of your *alma mater*. I still hear our Staff and Students fondly remembering a brilliant student like you. Your juniors have carried on the light you ignited in their hearts. Your visits to the *Center for Design of Power Electronics Systems* in the Institute must have assured you the volume of change in the working style of our students.

We are proud of you Mr. Panday, for the Alumnus like you are the real assessment certificate of an Institute. We know that you will go a long way in the fields of Electrical and Electronics Engineering. Visit us whenever we are in need. Your *alma mater* will remember you for being an excellent student and an exemplary mentor to your juniors. I wish you all the best in all your endeavors in life.

01/01/2019

Dr. Nagesh Prabhu

Professor and Head
Department of E & E
N.M.A.M. Institute of Technology,
Nitte. 574 110
